Workflow automation | Onboarding | Platform adoption | Cross-functional leadership

PROFESSIONAL EXPERIENCE

ZILLOW GROUP

Feb 2023 - Present

Principal Product Manager

Remote

- Led strategy, development, and launch of Zillow Pro, unifying disparate agent tools into a cohesive experience and incorporating AI-powered capabilities into agent workflows.
- Conducted onsite discovery at four brokerages, mapping transaction workflows and standard operating procedures to identify recurring needs across tools and teams.
- Conceived and built tools connecting workflows, tasks, transactions, and documents; used AI and Model Context Protocol (MCP) integrations to reduce manual work across systems.
- Launched an internal Zillow Pro support tool, creating a dedicated workflow for internal teams to troubleshoot issues and support customers.
- Originated and pitched Likelihood to Sell during Hack Week; partnered with Data Science to prototype the model and helped productize it within Zillow's leads platform and CRM.

COMPASS

Lead Product Manager, Automation & Productivity

Feb 2022 - Feb 2023

- Led an automation platform from strategy through launch; defined a 3+ year roadmap and OKRs with engineering, design, marketing, and research.
- Launched Action Plans, the first product on the automation platform, helping customers complete an additional 1.25 real estate transactions annually.
- Scaled platform adoption to six development teams and 40+ engineers; their use of the service saved customers an estimated 150,000 hours in one year.

Senior Product Manager II

Sep 2019 - Feb 2022

- Launched the Productivity Suite of tasks, calendar, and notes in nine months, using reusable components and microservices to accelerate delivery.
- Increased weekly active user engagement by 25% and reduced product usage churn by 15%; managed and coached three product managers.
- Led development and launch of the Team Performance Dashboard; users showed 35% higher closed transaction volume than non-users, associated with \$200M in additional real estate gross transaction volume over 12 months.

Senior Product Manager

Feb 2019 - Sep 2019

- Combined qualitative and quantitative research in a national customer study; presented priority customer problems and product opportunities to executive leadership.

PROFESSIONAL EXPERIENCE, CONTINUED

CONTACTUALLY

Acquired by Compass

Director, Product Management

Aug 2018 - Feb 2019

- Led efforts to productize and publicize Contactually's API; advised integration partners on API usage and built relationships with the developer community.
- Managed a strategic multimillion-dollar partnership with Compass, translating product goals and licensing requirements into complex technical deliverables and communicating milestone progress.

Senior Product Manager

Feb 2017 - Jul 2018

- Improved web and mobile onboarding through hypotheses, design sprints, and split tests; increased new-customer conversion by 25%, reduced new-customer churn by 15%, and increased the weekly-to-monthly active-user ratio by 20%.
- Replaced instructor-led training with scalable onboarding, enabling inside sales to focus on enterprise opportunities and contributing to an 85% increase in enterprise contracts.

K12 INSIGHT

Apr 2013 - Jan 2017

Product Manager

Herndon, VA

- Partnered directly with the CEO on the roadmap and launch of a new customer-service SaaS product line; led ongoing product iterations as the company onboarded 300+ school districts.
- Launched automated onboarding that reduced hands-on technical training by 50%.
- Launched a dedicated mobile app for parents and students, using prototypes and user feedback to shape the initial experience.

EARLIER EXPERIENCE

K12, Inc. | Project Manager

Sep 2010 - Apr 2013

- Led developers building and maintaining online courses for virtual public academies; managed support requests and a complete overhaul of the student curriculum experience.

KC Distance Learning | Team Lead, Developer

Mar 2008 - Sep 2010

Acquired by K12, Inc.
